

## Trimble Access / Spectra Origin - Training

Course Description: This course is designed to teach novice to intermediate users how to effectively use Trimble Access with both GPS and Conventional survey equipment. We will start with an overview of the software to familiarize newer users to the software layout before getting into more of the functionality. We will also go over the Roads module.

### Topics Include:

Trimble Access Layout	Projects
Managing Job files	Creating/Editing Job files
Coordinate Systems	Site Calibrations
Survey Styles	Importing/Exporting Data
Working with Feature Codes	Measure Codes
Stakeout	COGO Tools
Troubleshooting Common Field Problems	Roads Module
Trimble Connect	

**Prerequisite:** Student must have a data collector running Trimble Access 2023.xx
