Trimble Business Center

Course Description: This course is designed for novice to intermediate users of TBC. In this course we will start by covering basic commands and features in TBC before moving onto some common workflows. Upon successful completion of this course participants will have a working knowledge of TBC and will be able to perform many of the more common workflows.

Topics Include:

- Overview of TBC Modules
- Options
- Quick Access Tool Bar
- Importing Data
- View Filter Manager
- Project Explorer
- Vector Spreadsheets

- License Types
- Settings
- Customizing Ribbons
- Exporting Data
- Processing Feature Codes
- Working with Static Data
- Optical Spreadsheets

Prerequisite: Student must have a laptop with current version of TBC installed
